VISIT TO MRS. SHAMIM BILGRAMI (MAANJEE)

Staff and the Administrator paid a visit to Mrs. Shamim Bilgarami (Maanjee) to show their concern about her well being. Maanjee was delighted to meet the team and thanked all the visitors. Team remained with her for some time and discussed some ongoing important issues in respect of school.

Also, a brief discussion session took place in which it was discussed that whether staying back in Pakistan despite this turbulent and unpredictable situation is wise or unwise. During the discussion it emerged that since it is not possible for every body to move out of the country and also that backing off from facing the troubles may not be a good solution, it is better to stay back rather than fleeing away. It is better to participate in the correction of the system. The discussion proved to be very interesting and all the present participated actively during the discussion.

After staying for an hour, the team departed and reached back home.

Monthly Test.

According to the schedule, monthly test were held in the mid of January. All the enrolled students appeared in these examinations. It was observed that all the students were comfortable and seemed well prepared which shows that their teachers have really worked hard during the academic session.

**Debate: What are the objectives of education?
Are we successful in achieving these objectives?**

A debate was organized on the above subject among the school faculty. All the teachers participated in this debate. As a result, it was found out that though Education aims to turn us in to a better and useful being, however, we do not respond to the spirit of education. This means that we do not change our behaviors in the light of education we receive. Most of all, it's the most educated people who act as ignorant hinges in most cases. Therefore, it was concluded that as there is nothing wrong with Education, however, it's the adoptability of spirit of education we are a failure in.
